

ITEMS FOR MR. CARY FOR THE DCI 9:00 MEETING ON: 4 June 1975

Date

FROM: Don
Name

SUBJECT: S. 1841

Senators Bayh, Tunney, Mathias, and Abourezk introduced this bill which would completely ban the use of polygraphs by U. S. Government agencies. It is modeled after Representative Koch's proposal and Senator Bayh gives credit for the proposal to Representative Koch in his introductory remarks. Bayh seems to be quite flexible on the need for some use of polygraphs by intelligence agencies, but states until he is convinced, he supports the bill as is, completely barring the use of this test.

LLM

mention this today maybe
we could get Bayh out (+ also
Mathias) + talk w him then
about an use of the poly.
I think Abourezk is a lost cause
but maybe they could convince
him of our needs.

JK
